Accelerator program

GOAL

We offer projects early-stage investments, i.e., **seed** and/or **private** rounds, as well as media coverage and support from our community.

The **DeFi Hunters DAO** fund submits the project for review to independent analysts, after that **DAO** members vote on the final investment decision.

What do you get

Projects that take part in the accelerator program, in addition to the investment, can also count on the following opportunities provided by Pro Blockchain Media and DAO:

Consulting (economics/marketing/community)

The co-founders of Pro Blockchain Media are available to help with ongoing project issues if the project team requests this.

Marketing from Pro Blockchain Media

Video mention and/or posts on social media (details to be negotiated with each project separately).

Preparing for DEX/CEX listing

The PBM team may guide and provide information for preparing the project's token for listing.

Networking and preparation for grants from Polygon/NEAR/Polkadot/Solana, etc.
